

Request for Proposals - Medical Education Grants

Addressing knowledge and competence gaps for the management of Chronic Inflammatory Demyelinating Polyneuropathy (CIDP)

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support IME/CME programs in the following areas of interest.

Areas of Interest

- Strengthen awareness and application of the latest CIDP diagnostic criteria and guidelines, encompassing clinical presentation, disease variants, electrophysiologic assessments, and supportive diagnostic elements to improve accurate and timely diagnosis of CIDP.
- Enhance familiarity and use of disease-monitoring tools for CIDP, including but not limited to grip strength assessment, Inflammatory Neuropathy Cause and Treatment (INCAT), and Inflammatory Rasch-built Overall Disability Scale (I-RODS).
- Understand the natural history of CIDP, including untreated CIDP, progression and relapse rates, and define best practices for monitoring patients for disease worsening.

Program Format Considerations

- Program to start after October 1, 2026
- Enduring content for at least 12-months after launch of program
- Preference for round table or a variety of content formats as recommended by IME provider

Target Learner

- Minimum IME/CME requirement, 1 credit for all applications
- Educational credits in the United States
- Neurologists, neuromuscular specialists, and advanced practice providers

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence, and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.
